

SAMUDRA PETROCHEM LLC

Safe. Smart. Sustainable.

Company Overview

About Samudra Petrochem L.L.C

Samudra Petrochem L.L.C is a Dubai-based enterprise specializing in the oil, gas, and petrochemicals industry. Established to meet the rising regional and global demand for reliable energy and chemical solutions, we offer expert logistics, trading, and hazardous waste management services. Our commitment to operational excellence, safety, and sustainability positions us as a strategic partner in the global energy and industrial value chains.

Our Commitment

- **Reliability:** Ensuring consistent and dependable services across all operations.
- **Responsibility:** Upholding the highest standards of safety and environmental stewardship.
- **Revolutionary Approach:** Continuously innovating to meet the evolving needs of the industry.

Strategic Advantage

Located in Dubai, a global business hub with world-class infrastructure and supportive government policies, we leverage our strategic position to serve clients efficiently and effectively.

About The Founder

CAPTAIN ROHIT GARG
Founder & Managing Director

Samudra Petrochem L.L.C. is wholly owned and led by Mr. Rohit Garg, an Indian entrepreneur. His leadership is a powerful synergy of strategic vision and extensive, hands-on experience in petrochemical operations, ensuring the company's sustainable growth and stringent regulatory compliance.

With over 33 years of dedicated service in the international shipping industry, Captain Rohit Garg has garnered global recognition for his exceptional leadership, innovation, and pursuit of excellence. His distinguished maritime career began as a Master Mariner with Anglo Eastern Ship Management, commanding a diverse range of vessels.

His journey continued with commanding VLGC vessels for Transpetrol TM, followed by significant leadership roles, including Vice President at Vertex Infosoft Solutions Pvt. Ltd. and Managing Director of Ocean Manager. In these capacities, he was instrumental in spearheading marine safety and compliance initiatives across more than 1200 ship installations worldwide.

Captain Garg's profound expertise in marine logistics, hazardous cargo handling, and sustainability now powerfully drives Samudra Petrochem's mission: to deliver reliable, responsible, and transformative energy solutions to global markets.

DUBAI'S STRATEGIC LOCATION

Geographical Advantage

The proximity to major shipping routes and the region's bustling maritime industry provide a convenient location for both waste collection and distribution of recycled products. As per the regulations of Dubai Municipality, all waste generated in the Emirate of Dubai needs to be recycled in Dubai itself. Our refineries exclusively recycle the waste oil generated in all the ports of Dubai - Al Hamriya Port, Port of Jebel Ali, Mina Rashid Port and Port Saeed.

Supportive Government Policies

UAE government is committed to sustainability and environmental conservation. At COP29, a key agreement established a \$300 billion annual fund to help developing nations tackle climate challenges. This initiative reinforces global net-zero goals under the Paris Agreement. The plant will benefit from these robust regulations and policies promoting waste management and recycling, fostering a favourable environment for the operation of the recycling plant.

DUBAI'S STRATEGIC LOCATION

Global Business Hub

Dubai's status as a global business hub attracts international investment and collaboration opportunities. The plant's location in Dubai offers access to a network of industries, research institutions, and commercial partners, ensuring a dynamic environment for innovation and growth in the recycling sector.

Infrastructure and Facilities

Dubai offers world-class infrastructure for industrial operations. The plant has access to advanced logistics, transportation networks and port facilities, ensuring efficient import of waste and export of recycled products to global markets. Samudra Petrochem L.L.C. owns approved road tankers for collection and transport of waste oil to the recycling plant.

Our PHILOSOPHY

Mission

To responsibly source, transport, and trade petrochemical products while upholding the highest standards of safety, quality, and environmental responsibility.

Vision

To be recognized as a trusted global partner in petrochemical trading, delivering value with integrity, innovation, and sustainability.

Core Values

Integrity and Transparency
Commitment to Sustainability
Operational Excellence
Customer-Centric Approach
Safety and Compliance Focus

Core Services

1

Hazardous Waste Collection and Transport

This service involves the safe and regulated collection, handling, and transportation of hazardous industrial waste, such as used chemicals, petroleum by-products, and toxic materials. Samudra Petrochem follows strict international safety protocols and environmental guidelines to ensure waste is transported without risk to human health or the ecosystem, using specialized vehicles and trained personnel.

2

Petrochemicals Trading

Samudra Petrochem facilitates the wholesale trading of essential petrochemical products such as ethylene, propylene, and polymers used in manufacturing plastics, fertilizers, and synthetic materials. The company leverages a strong regional and international supplier network to ensure reliable sourcing and competitive pricing for a wide range of industrial clients.

3

Lubricants and Petroleum Waste Transport

This service includes the collection and transport of used lubricants, oil sludge, and petroleum residues from industrial operations, workshops, and marine vessels. Samudra Petrochem ensures proper containment and environmentally compliant disposal or recycling through approved treatment facilities, helping clients manage waste responsibly.

Core Services

4

Oilfield Chemicals Trading

The company supplies high-performance chemical formulations used in oil and gas exploration, drilling, and production processes. These chemicals include corrosion inhibitors, demulsifiers, and drilling fluids that enhance efficiency and protect infrastructure. Samudra Petrochem ensures product quality, timely delivery, and compliance with oilfield safety standards.

5

Basic Industrial Chemicals Trading

This service covers the trading of fundamental industrial chemicals such as acids, solvents, and alkalis used across multiple sectors including manufacturing, textiles, construction, and water treatment. Samudra Petrochem provides consistent supply and adheres to all regulations concerning the storage and distribution of such chemicals.

6

Refined Oil Products Trading

This service includes the collection and transport of used lubricants, oil sludge, and petroleum residues from industrial operations, workshops, and marine vessels. Samudra Petrochem ensures proper containment and environmentally compliant disposal or recycling through approved treatment facilities, helping clients manage waste responsibly.

Core Services

Offshore Crude Oil Trading

In this segment, the company facilitates the international trading of crude oil sourced from offshore drilling operations. Acting as a reliable intermediary, Samudra Petrochem connects suppliers and buyers across borders, ensuring compliance with export-import regulations and delivering competitive value in crude energy transactions.
